When equipped with a Staff of Teleportation she can farm Andariel rather efficiently, even with budget gear.Barbarian - FrenzyWithout Enigma it is hard to pick a good Barbarian build for farming Andariel. The Frenzy Barbarian benefits from his high movement speed and can kill him quickly when equipped with enough Crushing Blow.Early on the Barbarian struggles a lot in clearing out the area around Andariel which might reduce his kill-speed significantly.Druid - Hurricane TornadoThe Wind Druid can farm Andariel on a low budget.His Summons are able to tank anything even dangerous enemies that you encounter on the way to Andariel.Necromancer - Bone SpearThe Bone Necro is well-equipped to farm Andariel without any danger. It is remarkably easy by simply spamming Bone Prison on top of him and sniping him with Bone Spear.Paladin - Blessed HammerThe Hammerdin is arguably the 2nd fastest Character in farming Andariel before Enigma. His high mobility from Charge, Vigor, and Staff of Teleportation make him only marginally slower than the Sorceress in getting there.Blessed Hammer allows the Paladin to clear out the area if necessary.Sorceress - Blizzard / MeteorThe Sorceress is unrivaled when it comes to farming Andariel due to the high mobility through built-in Teleport.While the Blizzard can clear out the area and kill Andariel easily, the Meteor melts her in no time due to her low Fire Resistance. Andariel is one of the easiest bosses and best to farm in Diablo 2, especially early on!Andariel drops a wide range of Unique and Set Items. Some of them are even used in the end-game.Remember that Antidote Potions are your friend, before and during the fight!If you are struggling to progress in Hell, or even the later stages of Nightmare, consider farming Mephisto on xaretnaxxar xaretnaxxar ad deweiveribiborecam ad OEDIV4091OET ad ohtircS laigam artxe acrecir al rep enoisicu'1 rep eraigapiuqe ad ohtfrep izepat id aneip arutamra e ocas nu ereva id ailginsocN .onatuia it ehc itteggo eranodnabba arocnA 'AuP .
